SUMMARY

IT support and infrastructure technician with a Bachelor of Computer and Information Science from AUT (Networks & Cybersecurity, Software Development), three CCNA certifications earned across three consecutive years, and self-taught Linux server administration outside of work. Since October 2025, I have run my own support business, To the Point Tech, providing on-site and remote assistance to homes and small businesses across Auckland, covering device setup, fault isolation, Wi-Fi and network configuration, data recovery, and Microsoft 365. I work across Windows, macOS, and Linux, and I am just as comfortable explaining a fix to someone with no technical background. I am looking for a service desk, IT support, or junior infrastructure role where I can work with business systems and networks at a scale I cannot reach on my own.

SKILLS

- **Support & Infrastructure:** Windows, macOS, Linux (Ubuntu), Microsoft 365, Active Directory fundamentals, networking (TCP/IP, DNS, DHCP, VLANs, Wi-Fi), routers and switches, printer and peripheral setup, hardware diagnostics, backup and recovery, virtualisation, remote support (TeamViewer, RDP)
- **Development & Tooling:** TypeScript, JavaScript, Python, Java, SQL, MongoDB, Prisma, React, Next.js, Node.js, C, Nginx, PowerShell, Bash, Git, GitHub, SSH, SFTP, REST APIs, Azure, AWS, Cloudflare
- **Soft Skills:** Customer service, fault isolation, translating technical details for non-technical users, documentation, time management, adaptability

CERTIFICATIONS

CCNA - Enterprise Networking, Security, and Automation
Cisco, 2023

CCNA - Switching, Routing, and Wireless Essentials
Cisco, 2022

CCNA - Introduction to Networks
Cisco, 2021

PROFESSIONAL EXPERIENCE

To the Point Tech

Owner / Technician | tothepoint.co.nz

Auckland, New Zealand

10/2025 – Present

- Provide on-site and remote IT support to residential and small business clients across Auckland.
- Diagnose and resolve hardware, operating system, email, printer, and connectivity faults across Windows and macOS.
- Configure Wi-Fi networks, routers, and new device setups; handle data migration, backup, and recovery.
- Log and triage incoming jobs, track them through to resolution, and keep structured records of work performed, alongside scheduling, invoicing, and follow-up.
- Standardise setups and keep records for repeat clients to reduce recurring issues.

Woolworths

Night Fill Assistant

Auckland, New Zealand

11/2022 – 06/2023

- Restocked and faced shelves on overnight shifts so the store was ready to trade at opening.
- Worked to fixed deadlines with minimal supervision as part of a night crew, checking stock condition and presentation.

Mount Albert Aquatic Centre

Lifeguard

Auckland, New Zealand

10/2019 – 05/2023

- Responsible for public safety at a busy aquatic centre, working in a team of three to six, coordinating with front of house.
- Dealt with the public all day, from answering questions to enforcing rules with people who did not want to hear it, and stayed calm during incidents.

PROJECTS & INFRASTRUCTURE

Home Server & Network Lab

Systems & Network Administration – Personal Project

Auckland, New Zealand

2022 – Present

Skills: TrueNAS SCALE, ZFS, Docker, Linux, Networking, Cloudflare, Tailscale, VPN, Nginx, PowerShell

- Administers a TrueNAS SCALE server with a 46 TB ZFS pool, covering special vdev configuration, snapshot lifecycle management, and command-line diagnosis of checksum and capacity faults.
- Runs 19 containerised services and two virtual machines, managing CPU and memory limits, GPU passthrough for hardware transcoding, and inter-container networking.
- Maintains external access through Cloudflare tunnels and DNS, with Tailscale for device-to-device connectivity and VPN routing for selected traffic.

AT Route Performance

Software Developer – Personal Project

Auckland, New Zealand

08/2025 – present

Skills: TypeScript, MongoDB, Prisma, Next.js, Leaflet, Auckland Transport API (GTFS-RT)

- Measures how far Auckland Transport runs from its published schedule, using AT's GTFS-RT feed.
- Rolls daily stop-arrival deviations into per-route summaries behind ranking and per-stop pages.
- Counts cancellations separately so a cancelled service cannot flatter a route's on-time rate.

ChatGPT Discord Bot

Software Developer – Personal Project

Auckland, New Zealand

04/2024 – present

Skills: TypeScript, Discord.js, OpenAI API, LaTeX Rendering, Tenor API

- Discord bot using the OpenAI API to generate replies with configurable personality, tailored to each user.
- Thread-aware memory, emoji replacement, LaTeX-to-image conversion, and image/file inputs enhance chats.
- Slash commands for controlling cooldown between messages, encrypted memory storage, and rotating logs make debugging easy.

Chat Bot Platform

Software Developer – University Team Project

Auckland, New Zealand

03/2023 – 11/2023

Skills: C#, JavaScript, HTML, PowerShell, Shell Scripting, Azure Language Studio, Azure Bot Framework Composer, Microsoft Teams Integration, Git

- Chatbot prototype for Te Whatu Ora Counties Manukau that fields HR, Health & Safety, and location questions.
- Two Azure stacks, Language Studio Custom QA or Bot Framework Composer, slot straight into Microsoft Teams.
- Delivered for a real external client as a university team project, working to the client's requirements across a full academic year.

iFridge

Software Developer – University Team Project

Auckland, New Zealand

07/2022 – 11/2022

Skills: React/Progressive Web App, TypeScript, Node.js / Express.js, Firebase Hosting, Firebase Real-time Database, Firebase Authentication (OAuth)

- Software-as-a-Service that allows users to generate 50+ recipes using the items listed in their virtual fridge.

EDUCATION

AWS re/Start

Cloud training programme - AWS fundamentals, Linux administration, Python scripting, networking

Auckland, New Zealand

2024

Auckland University of Technology

Bachelor of Computer and Information Science
Majors: Software Development, Networks & Cybersecurity

Auckland, New Zealand

2021-2023
